great. thanks. WY wants to do a public meeting in Pavillion Jul 17 -- coincidental, as far as I can tell. But would be doubly important to get on the same page with USGS.

Jim, thanks for your quick response a short while ago.

On another topic, I have asked our front office to schedule a time for USGS and EPA senior leadership to talk about Pavillion prior to mid-July when USGS releases its results for peer review. The ORD lab folks are pulling together information that we'll need to discuss internally first. Will keep you posted.

Fred
